S.P.A.M. ROBOTICS

S.P.A.M. (Speed, Power, and Maneuverability) is a team of high school students from Martin County (FL) mentored by adults employed in Science, Technology, Engineering and Mathematics (STEM) fields and various other professions and occupations. In about six weeks we design, fabricate, assemble, program and test a fully-functioning robot to compete in intense challenges against teams from around the world in the FIRST® Robotics Competition Tournaments. Thank you for supporting your award-winning high school robotics team.

Full Name _____ Phone _____

Company _____

Address _____

E-Mail _____
