

FRC Team 180 S.P.A.M. Robotics

S.P.A.M. Robotics

(Info@spamrobotics.com)

S.P.A.M. (Speed, Power, and Maneuverability) Robotics is a team of high school students from Martin County (FL) mentored by adults from Science, Technology, Engineering, and Mathematics (STEM) fields and other non-STEM professions. In six weeks, we design, fabricate, assemble, program, and test a fully functioning robot to compete in intense challenges against teams from around the world in FIRST® Robotics Competition (FRC) tournaments [FIRST Inspires](http://www.firstinspires.org) (<http://www.firstinspires.org>).

Help us build a world class STEM center at our new facility in Martin County!

Thank you for supporting your award-winning high school robotics team.
